Fairstone and these product providers will provide the customer with specific pre- contractual documentation depending on the type of product that you decide to take out following your financial consultation.

If you proceed to take out a contract, all terms & conditions including premiums due, and the term of the contract will be confirmed by the provider in a Policy Schedule.

Information about the financial products that we provide advice on

Investment and Pension products are designed for medium to long term commitments and as such there is a risk that you may lose some or all of your money invested. In addition, relying on past performance is in no way a reliable indicator to the future performance of funds.

Life and income protection policy products are designed to replace money or income if a customer is unable to work or unfortunately dies. However, there is a risk that the Life Company will not pay out, where a customer has not disclosed any material, medical or other facts.

Mortgage products allow customers to purchase or refinance their property. Mortgage terms can be up to 35 years. Security is required and subject to lender underwriting requirements.

The variable interest rate can go up and down, unless the mortgage is fixed, which may require you to pay an early redemption fee.

Where a borrower does not repay their mortgage, then their loan will go into arrears and the property may be repossessed by the lender, and it could impact your current credit rating.

Fees and Charges

Our current charges are set out below. This is the maximum amount we will charge for these consultations; however, we may run free or discounted consultations for specified periods of time, but we will not charge more than the stated amount:

Mortgage Consultation: €199

Additional fees may be payable for complex cases or to reflect value, specialist skills or urgency. This can range from €200 per hour to €500 per hour. We will notify you in writing in advance and agree the scale of fees to be charged.
