## Investment Principles

### FOCUS ON THE LONG TERM

Building wealth takes patience. By staying committed to your long-term goals and avoiding short-term market fluctuations, you can navigate challenges and are far more likely to benefit from overall market growth.

### DIVERSIFY YOUR INVESTMENTS

Spreading your investments across different asset classes helps cushion the impact if one underperforms while others thrive, keeping your financial journey on track.

### BALANCE RISK AND REWARD

Higher-risk investments, such as shares, offer greater potential returns but come with increased volatility. Lower-risk assets, like bonds, provide stability but grow at a slower pace. A well-balanced portfolio, tailored to your goals and risk tolerance, is key to long-term success.

### HARNESS THE POWER OF COMPOUND RETURNS

Re-investing your returns creates a snowball effect, helping your wealth grow faster over time. With patience and consistency, compounding can become one of the most powerful tools in your investment strategy.

### Fund structure

The Fairstone Market 75 Fund is an Aviva unit linked fund that invests in units of the Prescient Fairstone Market 75 Fund, a sub fund of the Prescient Global Funds ICAV (Irish Collective Asset-management Vehicle are regulated funds and, therefore, have all of the benefits of a regulated structure). The assets and liabilities of each sub-fund of the ICAV are segregated subject to the provisions of Irish law. The Prospectus and Periodic Reports are prepared for the entire ICAV. You can find out more information about the ICAV in the Prospectus.
