The Fairstone Market 50 Fund is an innovative way of delivering long term returns from a widely diversified investment portfolio. Fairstone employs the services of global research teams to define a mix of shares, bonds, property and cash that represents their assessment, of the economic environment and its outlook. Stock markets tend to drive the majority of long-term returns but carry some risks. Therefore, the maximum exposure to shares is capped at 50%.

Investment Principles

FOCUS ON THE LONG TERM

Building wealth takes patience. By staying committed to your long-term goals and avoiding short-term market fluctuations, you can navigate challenges and are far more likely to benefit from overall market growth.

DIVERSIFY YOUR INVESTMENTS

Spreading your investments across different asset classes helps cushion the impact if one underperforms while others thrive, keeping your financial journey on track.

BALANCE RISK AND REWARD

Higher-risk investments, such as shares, offer greater potential returns but come with increased volatility. Lower-risk assets, like bonds, provide stability but grow at a slower pace. A well-balanced portfolio, tailored to your goals and risk tolerance, is key to long-term success.

HARNESS THE POWER OF COMPOUND RETURNS

Re-investing your returns creates a snowball effect, helping your wealth grow faster over time. With patience and consistency, compounding can become one of the most powerful tools in your investment strategy.

Fund structure

The Fairstone Market 50 Fund is an Aviva unit linked fund that invests in units of the Prescient Fairstone Market 50 Fund, a sub fund of the Prescient Global Funds ICAV (Irish Collective Asset-management Vehicle are regulated funds and, therefore, have all of the benefits of a regulated structure).
